FILM & LIBRARY COMMUNITIES "SALUTE" BPL'S ED PELTIER

The American film and library communities honored one of Boston's most productive and enduring audiovisual professionals with a special "Salute to Ed Peltier" at the Boston Public Library on February 28th.

Ed Peltier founded the BPL's Audiovisual Department shortly after graduating from Boston University's (then) School of Public Relations and Communications in 1950. Under his guidance during the past 40 years, the Boston Public Library became the model for libraries throughout the country. Peltier expanded and diversified the film and audiovisual inventories, provided support for independent filmmakers, supported an emerging television news industry, and developed innovative film programs to meet the ever diverse tastes of Boston's film aficionados.

the guest of honor and then chronicled some of his major accomplishments as the head of the BPL's Audiovisual Department during his lengthy career. Mr. Curley then presented Ed with a citation honoring him from the Library's Trustees and announced that the Trustees have named him "Curator Emeritus of Film for the Boston Public Library."

Ed received a number of presentations from dignitaries recognizing his many cultural and educational contributions to the city, the commonwealth, and the nation.

Dan Daley, assistant secretary for Finance and Administration for the Commonwealth led the list of civic presentors with a special citation honoring Ed from Governor William Weld. Linda Peterson Warren, the Governor's new appointee to head the Massachusetts Film Office, presented Ed with an engraved Paul Revere Bowl in behalf of the state's film industry. Bruce Rossley, commissioner of Arts and Humanities for the City of Boston, then presented Ed with a special proclamation from Mayor Flynn proclaiming February 28th as "Ed Peltier Day" in the City of Boston. Nat Segaloff, secretary of the Boston Association of Film Critics, then drew a laugh from the audience when he presented Ed with an empty picture frame for the special award

given him earlier this year by his Association.

Frank Avruch read a number of citations that were received from organizations around the country honoring Ed. These included a special citation from the American Film Institute, the American Film & Video Association, Women in Film, and the American Library Association.

A verbal montage of the various constituencies Ed has served was painted by a number of speakers who briefly saluted the audiovisual pioneer. These included: Tony Gulla, a New England film producer and distributor; Liane Brandon, an independent filmmaker of note who Ed assisted in her film infancy; Bruce Cronin, a member of the Emerson film faculty and a filmmaker who also praised Ed for his support; veteran Boston television news director Jim Thistle, now a professor of broadcast journalism at Boston University, who praised Ed's support of television news operations during their emerging years; David Kleiler, creative director of the Coolidge Corner Theatre, and Bo Smith, director of the Museum of Fine Arts' film program, who praised Ed's support of serious films; and Ron Della Chiesa, popular WGBH radio personality who spoke of Ed's love and extensive knowledge of music.

One of the highlights of the evening came when Melissa Peltier, herself a very talented and successful filmmaker in Hollywood, spoke of what it was like growing up as Ed's daughter.

Frank Avruch then introduced the guest of honor. Ed was brief and gracious in his comments as he described his love affair with the Boston Public Library and Boston's

Frank Avruch, WCVB-TV's host of "The Great Entertainer," served as the emcee for the special BPL ceremony before a near-capacity crowd in the Rabb Lecture Hall. The quick-moving program featured a number of library and communication dignitaries representing organizations and constituencies affected by Peltier over the years who delivered testimonials and tributes describing Peltier's and the BPL's accomplishments and contributions. Arthur Curley, the director and librarian of the Boston Public Library, began the program by describing his long-standing friendship with

film community. He promised to remain available to the library in his role as "Curator Emeritus" and thanked everyone for a most wonderful career and a most remarkable evening.

MINORITY AND WOMEN OWNED BUSINESSES THRIVE AT MWRA

The Massachusetts Water and Resources Authority announced today that its Minority and Women Business Enterprises Procurement Plan achieved its most successful year to date during fiscal year 1990, awarding a total of \$38 million in contracts, \$26 million to minority owned businesses (MBEs) and \$12 million to women owned businesses (WBEs).

"The MWRA is strongly committed to equal opportunity and we are very pleased with the results that the MBE/WBE Procurement Program has brought to us," said MWRA Special Assistant for Affirmative Action & Compliance Julius T. Williams, Jr. "All minority- and women-owned businesses should be aware of and have the opportunity to bid on the various MWRA contracts offered. Over the next several years there will be many contract opportunities, and we continue to encourage all minority- and women-owned businesses to submit bids and proposals and compete for projects."

Each year, the plan directs the Authority and each Division to achieve the following goals:

CATEGORY	GOALS
Construction, MBE	8.25%; WBE 2.09%.
Professional Services, MBE	11.44%; WBE 8.25%.
Goods & Non-Professional, MBE	2.20%; WBE 8.25%.

Overall in 1990, the Authority achieved 11.2% procurement with MBEs and 5.0% procurement with WBEs.

Annual expenditures were:

FISCAL YEAR	MBE \$ SPENT	WBE \$ SPENT
1987	\$ 3,951,781	\$ 2,370,517
1988	\$ 8,875,776	\$ 5,843,826
1989	\$16,590,955	\$ 8,552,994
1990	\$26,331,358	\$11,799,149
TOTAL	\$55,749,870	\$28,566,486

The Minority and Women Business Enterprises Procurement Plan, approved in October of 1986 by the MWRA's Board of Directors, was established as a major component of the Authority's Affirmative Action Program to promote business opportunities with minority- and women-owned businesses.

In 1990, the MWRA Affirmative Action Office took action to review the program. To ensure that the plan was in compliance with the U.S. Supreme Court's Croson decision, the MWRA took steps to strengthen its plan by participating in a series of six public hearings conducted by the Massachusetts Commission Against Discrimination to gather evidence about the past and present extent of racial or gender discrimination against minority- and women-owned businesses within the MWRA market area.

PLEASE NOTE: That the deadline of NOON, Thursday of each week is eleven days in advance of publication.

"The Authority also conducted its own disparity study to determine whether discrimination existed," Williams said. "As a result of both studies, the MWRA recommended appropriate changes in the existing procurement plan to increase opportunities to MBEs and WBEs."

The United States Supreme Court January, 1989, decision in the Croson case invalidated a Richmond, Virginia, ordinance requiring contractors to subcontract at least 30 percent of the dollar amount of each municipal construction to one or more MBEs. The Court said that the equal protection clause of the United States Constitution mandates the use of a strict standard in reviewing any race-conscious remedial program. Such programs can now be upheld only if there is:

- a demonstration, based on appropriate and adequate findings of discrimination, of a compelling government interest.
- a showing that the remedial means used were narrowly tailored to achieve that interest.

UNDERSTANDING YOUR PRESCRIPTIONS

Seven hundred and fifty million prescriptions are taken improperly each year.

Modern medicine can relieve pain, prevent illness, speed recovery, and much more. Incorrect use of medication can be harmful, even lead to death. That is why it is important to understand your prescriptions.

1. Follow doctor's prescription exactly. Too much medication can lead to an overdose. Too little will render the medicine ineffective. If you miss a dose, consult your physician or pharmacist before doubling up on your next dose.

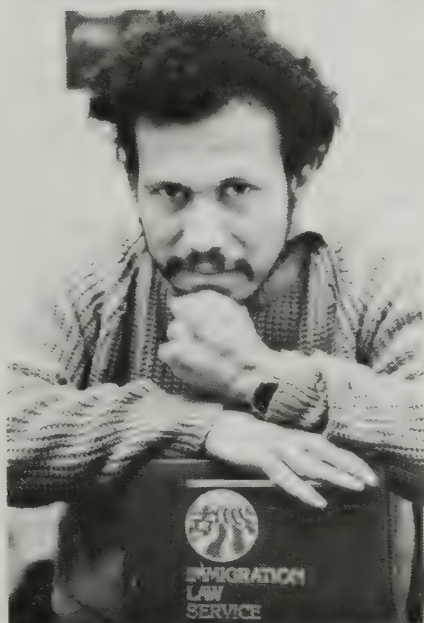

2. Do not stop taking your medicine without first consulting your physician, even if you are feeling better. It is often necessary to take the complete dosage to prevent return of the illness.
3. Many medications react adversely when taken with certain foods. Always follow physician and pharmacist's orders regarding food or drink intake while on medications.
4. Always speak to your doctor regarding smoking or drinking (alcohol) habits. Medication's performance may be weakened by alcohol or tobacco, or in extreme cases, mixing the two can be fatal.
5. Some medicines do not react well to other medicines. A list of medications you are taking, both prescription and over the counter, should be written down and reported to your physician and pharmacist.
6. Always keep medicines in original containers. Throw away the container when the medicine is gone or has expired. If you have a problem opening childproof caps, your pharmacist can replace them with easy open caps.
7. Never take medication in the dark. You could easily take the wrong one.

Another risk of prescription medicine is the potential for becoming addicted to it. Ask your physician if your prescription is habit-forming. Never take more than the prescribed amount or take medication without considering whether you really need it. It is very easy to develop a dependence on certain medications without being aware of it.

When used correctly, modern medicine can work wonders. make sure you are taking all your medications as directed. if you do your job, the medications will do theirs.

Amando Ramos (Photo by David Leifer)

FIRST SALVADORAN GRANTED POLITICAL ASYLUM IN BOSTON HELPS OTHERS TO GAIN FREEDOM

By Tony Ferullo

"It's hard to describe what I went through in El Salvador," said Armando Ramos. He hesitates, searching for the right words. "All I can say is that if I stayed there, I'd be dead now."

Because of his community organizing work in San Salvador, Ramos' name was on the execution list of his country's right wing death squads. He was severely tortured and was terrorized for years. One day in 1986 he ran for his life, dodging bullets fired at him in the downtown section of the city.

Five days after that incident, Ramos escaped his homeland and fled to the United States — heartbreakingly hav-

ing to leave his family behind.

He managed to find his way to Massachusetts, where he moved in with a friend in Somerville. In 1988, following a two-year legal battle, he was officially granted political asylum — thanks to Cambridge and Somerville Legal Services (CASLS). His success was the first time a Salvadoran was granted political asylum by a Boston immigration judge.

CASLS, located in Cambridge but serving 19 neighboring communities, is a private, nonprofit, poverty law office that provides free legal representation and advice to low income, elderly and disabled residents. CASLS' priority areas include housing and homelessness prevention, family law/domestic violence, public benefits, mental health and disability rights, and immigration/political asylum.

"Everyone here at CASLS has been very good to me," said the thirty-two-year-old Ramos. "They have helped me to get on with my life and make something out of myself."

Because the repression continues in El Salvador, many Salvadorans are still fleeing the country. Now Ramos spends his days helping other refugees gain security and freedom. As he sees it, his life was saved; now it's his turn to help save the lives of others.

For two years, Ramos, who was educated in the field of legal services in El Salvador while working for a human rights organization, has been providing direct service to the immigrant community as a paralegal at CASLS.

"Armando has a lot of feeling for helping people and improving the community," said John Willshire Carrera, Staff Attorney at CASLS. "He works very hard at his job, and he is always willing to learn new things. He has been a big addition to our program."

When he first came to America, Ramos learned the English language at Centro Presente, which provides legal, educational and social support services to Central American refugees in the Greater Boston area. Today, Ramos works part-time at Centro Presente as a paralegal, informing Salvadorans of their rights to temporary refuge in the

United States through the Salvadoran Temporary Protected Status Program.

"Armando is a warm, caring and funny individual who is so giving of himself," said Teresa Turvey, Executive Director at Centro Presente. "He is a wonderful person who is deeply committed to helping others."

Always looking to improve his skills, Ramos recently completed a 16-week training course (titled the ENLACE/Making the Connection Program) for bilingual and bicultural human service workers. The ENLACE/Making the Connection Program (accredited by Bunker Hill Community College for 10 academic credits) is part of the Bilingual/Bicultural Staff Training and Interpreter Services Initiative — an innovative joint venture involving six major local funders.

"Contributions from the United Way and other Initiative members have made this and other programs possible," said Judy Gold, Director of Education and Training at Concilio Hispano de Cambridge. "They've given us all the support that we've needed."

Concilio Hispano de Cambridge, Centro Presente and CASLS — agencies supported by the United Way of Massachusetts Bay — have been influential in helping Armando Ramos put the pieces of his life back together again.

Last year, Ramos, a Somerville resident, had his three children (Roberto, 13, Jenny, 12, and Oscar, 10) join him in this country. "My goal is to provide the best I can for my family and show them the opportunities they have here," he said. "I want to build a better future for my community and for all newcomers in the Boston-Cambridge area."

PEABODY MUSEUM EXHIBIT AT BPL

"The Peabody Museum of Salem" will be the featured exhibit in the Great Hall of the Boston Public Library in Copley Square during the month of April.

An introduction to the Museum and its collection, the exhibit consists of re-

productions of Museum paintings and objects, as well as a look at life at sea in the 1800s through the eyes of an ordinary seaman.

Also included in the show are samples of artwork created by children taking part in the Museums's educational programs, including a seven-foot paper mache statue of a ship's figurehead.

Founded in 1799 by the Salem East India Marine Society, the Peabody Museum holds more than 300,000 objects in its collections of Maritime History, Asian Export Art, Asian and South Pacific Cultures, and Natural History.

The 22 founders of the East India Marine Society were master mariners who exchanged navigational information and provided help to widows of those lost at sea. Such societies were numerous in those days, but the Salem Society was unique in that it required members to collect objects during their worldly travels.

Free and open to the public, the exhibition can be seen from April 2 through 29th during regular library hours: Monday to Thursday, 9 a.m. to 9 p.m. and Friday and Saturday, 9 a.m. to 5 p.m.

1991 NEW ENGLAND BOOK AWARDS AT BPL

The New England Booksellers Association will present "An Evening with the 1991 New England Book Award Winners" in the Rabb Lecture Hall of the Boston Public Library in Copley Square on Thursday, April 4th at 6 p.m.

The awards were established in 1990 to focus attention of the lifetime achievements of New England's outstanding community of writers, illustrators, and publishers.

This year's winners represent a diversity that makes New England one of the strongest book communities in the country. The recipients who will speak about their works are:

Fiction — Howard Frank Mosher, whose notable works include *A Stranger in the Kingdom* and *Disappearances*. A resident of Vermont, he was a 1981 recipient of the Literature Award

from the American Academy and Institute of Arts and Letters. He has also been the recipient of both Guggenheim and NEA Fellowships.

Nonfiction — Geoffrey Ward, R. Burns with Ken Burns, authors of *The Civil War*, the companion-volume to the acclaimed PBS-televized series of the same name. Mr. Ward was the principal writer while Ric Burns and his brother Ken were coproducers and co-authors.

Children's — Barbara Cooney, two-time Caldecott winner and author most recently of *Hattie and the Wild Wave* and a retelling of *Snow White and Rose Red*, is one of the most prolific and acclaimed illustrators and writers of children's books in the country.

Publishing — The University of Massachusetts Press, under the direction of Bruce Wilcox, has earned a distinguished reputation for its fine books on American studies, contemporary social issues, black history, women's history, and New England. The press has more than 400 titles in print including 35 new titles published last year.

The program is cosponsored by the New England Booksellers Association and is free and open to the public. A book signing will follow the program. For more information, please call 617/536-5400, Ext. 336.

BPL SELECTED FOR NEW LIBRARY OF CONGRESS DATABASE SERVICE

The Boston Public Library will serve as the Massachusetts site for a new computerized service from the Library of Congress, called "LC Direct."

Seven departments within the Research Library in Copley Square — Humanities, Government Documents, Science, Social Science, Interlibrary Loan/Catalog Information, Fine Arts, and Music — have on-line terminals with modems with which to access the LC databases and staff within these departments are able to search on-line as needed or requested. The BPL is paying a subscription fee and pays for all

telecommunication charges. Databases available through LC Direct include:

Copyright Information — Copyright registrations for serials, books, posters, sound recordings, computer files, etc. since 1978; **Books** — Books cataloged by LC in English since 1968, French since 1973, and other languages at varying dates; **Serials** — Serial publications cataloged since 1973, regardless of the beginning date of the publication. Also available are serials check-in records; **Legislation Information Files** — Details on federal legislation from the 93rd Congress to the present, noting a bill's contents, sponsorship, status, amendments, etc.; **Public Policy Items** — References to selected periodical articles, government publications, and other sources in English on U.S. public policy and current events from 1976 to present. Specialized data bases servicing the needs of the blind and physically handicapped, and copyright information and selected other files will also be available.

The Boston Public Library was one of 14 institutions nationally that participated in an earlier pilot project and is pleased to be selected as the Massachusetts site for the new phase of the program. Katherine Dibble, supervisor of Research Library Services, has been designated as the BPL contact for this program. For more information, please call 617/536-5400, Ext. 238.

**CONTRACTS AWARDED
WITHOUT ADVERTISING**

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

2330-91

August 8, 1990

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Peter Antell, an attorney with the law firm of Antell & Blacker, 211 Congress Street, Boston, Massachusetts 02110.

Pursuant to an Order passed by the City Council on August 17, 1988 and approved by your Honor on September 6, 1988, I have designated Peter Antell as "Special Outside Counsel." The order classified that position as a special municipal employee in accordance with G.L.c.268A, the so-called "ethics law."

Under the terms of the contract, Peter Antell will represent the City of Boston in the following cases:

Mary Mitchell, Administratrix v. Kevin

Jones, et al., Suffolk Superior Court, Civil Action No. 67560;

Barry Goldman, et al. v. City of Boston, Suffolk Superior Court, Civil Action No. 87-3462.

Carmen Squires, as she is the Trustee of Van Winkle Realty Trust v. City of Boston, Suffolk Superior Court, Civil Action No. 74084;

Peter Antell is specially qualified to perform these services. Mr. Antell, a former Assistant Corporation Counsel, has extensive litigation experience in matters of civil rights and land damages cases, had been actively involved in handling each of these cases while with the Law Department. It is necessary for Mr. Antell to continue his representation in the above pending cases because of the complex legal issues involved and the necessity to insure continuity of counsel.

Compensation under this contract shall not exceed fifty thousand dollars (\$50,000.00) to be paid at the rate of one hundred dollars (\$100.00) per hour, which I have determined reasonable for the work to be performed.

The term of this contract shall be July 1, 1990 to June 30, 1991.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

This contract is being submitted late due to the administrative delays stemming from uncertainties related to the department's funding shortfall in the fourth quarter of fiscal year 1990. These cases have been active over the past several months.

Very truly yours,

Joseph I. Mulligan,
Corporate Counsel.

Notice

The attention of all bidders is specifically directed to the City of Boston Supplemental Minority Participation and Resident Section contract provision of the specifications for the obligations of the contractor and subcontractor to take affirmative action in connection with employment practices in the performance of this contract.

Attention to All Bidders

I. Minority Business Requirements.

No bid for the award of this project will be considered acceptable unless the general contractor complies fully with the following requirements for minority business enterprise utilization.

Pursuant to the Supplemental Minority Participation section of this contract, the general contractor must give satisfactory assurance that at least 15 percent of his bid price shall be expended for minority business enterprise, if the bid is \$10,000 or over. For the purpose of this paragraph, the term minority business enterprise means a business in which at least 51 percent of the beneficial ownership and control is held by one or more minority persons (Black, Hispanic, Asian-American, or American Indian). At least 30 percent shall be expended for impacted area.

Each general contractor must complete, sign, and file with his bid the Minority Business Utilization Form. The Minority Business Utilization Form shall be completed and signed by the minority business enterprise and the general contractor. Failure to submit a Minority Business Utilization Form with the bid proposal will result in the rejection of the bid.

The City of Boston Minority Business Directory lists all minority-owned businesses that have been certified as such by the City of Boston. A copy of this directory can be obtained from the Awarding Authority or the Minority Business Office, 43 Hawkins Street, ground floor, Boston, MA 02114, telephone number 723-1400. If a contractor wishes to use a minority business that is not listed in the directory, he must contact the Minority Business Office to ob-

tain a copy and submit with his bid, a Minority Business Identification Statement. The dollar amount obligated to a non-certified (City of Boston) minority business will not count towards the minority business percentage requirements. II. Workforce Requirements.

During the performance of this contract, the general contractor shall agree and shall require that his subcontractors agree to the following workforce requirements (labor).

1. **Minority Workforce:** The contractor and its subcontractors shall maintain a not less than 25 percent ratio of minority manhours to total employee manhours in each trade worked on the contract.

2. **Female Workforce:** The contractor and its subcontractors shall maintain a not less than 10 percent ratio of female employee manhours to total employee manhours in each trade worked on the contract.

3. **Boston Residents:** The contractor and its subcontractors shall maintain a not less than 50 percent ratio of Boston resident employee manhours to total employee manhours in each trade worked on the contract.

4. The workforce requirements of paragraphs (1), (2), and (3) above shall apply to each trade that appears on the list of "Classification and Minimum Wage Rates" as determined by the Commissioner of Labor and Industries under the provisions of chapter 149, sections 26 through 27G, of the General Laws of Massachusetts, as amended. If you have any questions pertaining to the applicability of these requirements, please call the Compliance Office at 723-1400.

NOTICE OF REQUIREMENT FOR AFFIRMATIVE ACTION TO ENSURE EQUAL EMPLOYMENT OPPORTUNITY (EXECUTIVE ORDER 11246).

The contractor's attention is called to the "Equal Opportunity Clause" and "Standard Federal Equal Opportunity Construction Contract Specifications" set forth in this part.

The goals and timetables for minority and female participation are expressed in percentage terms for the contractor's aggregate workforce in each trade on all construction work in the covered areas. (See pages EEO-1 and EEO-2 of the bid specifications for goals and timetables.)

These goals are applicable to all the contractor's construction work (whether or not it is federal or federally assisted) performed in the covered areas.

As used in the notice, and in the contract, the covered area is Arlington, Boston, Belmont, Brookline, Burlington, Cambridge, Canton, Chelsea, Dedham, Everett, Malden, Medford, Melrose, Milton, Norwood, Reading, Revere, Somerville, Stoneham, Wakefield, Westwood, Winthrop, Winchester, Woburn, and the Islands of Boston Harbor, Massachusetts.

The contractor's compliance with the Executive Order and the regulations in 41 CFR Part 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific affirmative action obligations required to meet the goals established for the geographical area where the contract is to be performed.

The hours of minority and female employment and training must be substantially uniform throughout the length of the contract in each trade, and the contractor shall make a good-faith effort to employ minorities and women evenly on each of its projects.

The transfer of minority or female employees or trainees from contractor to contractor or from project to project for the sole purpose of meet-

ing the contractor's goals shall be a violation of the contract, the Executive Order and the regulations in 41 CFR Part 60-4. Compliance with the goals will be measured against the total work hours performed.

The attention of all bidders is specifically directed to the provisions of the contract documents, including, with limitation, the notice of all bidders (including subbidders), and the provisions with respect to bonds, insurance, equal employment opportunity, minimum wages, time of performance, liquidated damages, and the requirements set forth in the specifications on supplemental equal employment opportunity, anti-discrimination and affirmative action program contract provisions, and to the requirements of mandatory compliance with section 3 of the Housing and Urban Development Act of 1968 and Executive Order 11246.

NO. 14

BOSTON RECEIVES *WORKING MOTHER* MAGAZINE AWARD

The City of Boston was recently honored as one of the best cities for child care in the country by *Working Mother* Magazine.

Mayor Raymond L. Flynn joined with the Boston Women's Commission, child care advocates and providers, the business community, and working mothers, to celebrate the award at the Parkman House.

"On behalf of Boston's hard working child care providers, advocates, parents, and business leaders in Boston, I would like to thank *Working Mother* Magazine for citing Boston as one of the best child care cities in the country," said Mayor Flynn. "While other cities are talking about the importance of child care — working in conjunction with advocates, child care providers, and local business — the City of Boston has acted in a number of ways to create quality affordable child care, and strengthen family life."

quality, affordable child care for all working parents. Since 1984, the City of Boston has invested over \$5 million in child care programs. Last year alone, the City spent over \$1 million to ensure high quality child care for working families.

"It's no secret that the Commonwealth is faced with some very serious fiscal trouble which threatens to jeopardize the progress we have made" said Mayor Flynn. "In light of this, we must redouble our efforts to move forward with our progress. Working together, Boston will remain at the forefront in providing high quality, affordable child care."

VOCATIONAL ADJUSTMENT CENTER

For close to 30 years, the Vocational Adjustment Center (VAC) has distinguished itself by providing a wide range of vocational rehabilitation services to the mentally retarded and other developmentally disabled adults. VAC seeks to develop and support their vocational and independent functioning, as well as to provide them the opportunity to earn an income.

As a non-profit organization, VAC has a strong history of providing unique programs and services to the disabled and has an important story to present. Services provided to the trainees include diagnostic vocational evaluations, personal adjustment training, sheltered employment, specialized groups, individual counseling and daily living skills instruction. With our vocational training programs, trainees are able to acquire skills in assembly, packaging, tool

(Continued on next page)

In August of 1989, the City opened the first in the nation on-site affordable child care center for city employees. With a sliding fee scale and two-thirds of its forty-seven slots reserved for children of low and moderate income families, the center is a model to other communities as well as an example to other Boston employers.

Since that time, working in partnership, the City has also made important changes in the zoning code

that removed obstacles to the creation of family day care in residential neighborhoods. Additionally, the city worked to amend building codes to allow the provision of child care in downtown office buildings and asked developers to set aside space for the creation of centers in these downtown developments.

In spite of fiscal constraints, the City is working harder than ever to continue to address the need for

and equipment use, building and food services, collating, counting, mailing procedures and quality control. Our comprehensive evaluation process assesses the trainee's physical abilities, emotional skills and activities in living, learning and work place environments.

VAC's trainee population, which ranges from 125 to 150, resides mainly in Boston, however, over 20 cities and towns in the Greater Boston and Route 128 area are represented. Many of the trainees are currently working in supported employment jobs at host businesses. These trainees work in integrated job settings while earning either competitive or minimum wages as they advance towards regular full-time employment. During the past year over \$250,000 in wages and benefits were earned by our trainees.

The Vocational Adjustment Center has recently re-located to a new building in Brighton. The new building at North Beacon Street is in an excellent location and will allow us to continue to improve and develop new programs. In addition, we have become a business member of the Brighton community and we look forward to this opportunity. Our Board of Directors has expanded to include several new members from the Brighton community who bring with them new spirit, ideas and enthusiasm. We look to the future, confident of our mission to serve the mentally retarded and the disabled.

February 1991

Dear Friend,

The Vocational Adjustment Center will be the beneficiary of a "Friends in Need Benefit" to be held on Thursday, April 11, 1991, from 6:00 to 8:00 p.m., at the Guest Quarters Suite Hotel, Allston. Proceeds of the benefit will provide continuing support to trainee programs and will supplement funds influenced by current economic conditions.

For close to 30 years, the Vocational Adjustment Center has provided a wide range of vocational rehabilitation services to the mentally retarded and other developmentally disabled adults. The agency's mission and commitment is to provide training and meaningful work opportunities to the disabled.

I am extremely proud that each member of the Honorary Committee is endorsing this event and providing their personal support of VAC's programs and services. Please join them and participate with your personal contribution by purchasing tickets to attend this special event.

Thank you for caring.

ABCD LAUNCHES CHILD CARE CHOICES OF BOSTON A CHILD CARE RESOURCE AND REFERRAL AGENCY SERVING GREATER BOSTON

A large scale child care resource program aimed at defining suitable child care for Boston parents of all income levels was recently launched by Action for Boston Community Development, Inc. (ABCD). A major component of Child Care Choices of Boston's (CCCB) resource and referral service is the delivery of voucher day care referrals for children whose parents are participants in the Department of Public Welfare Employment and Training program. Child Care Choices of Boston (CCCB), licensed by the Massachusetts Office

for Children (OFC) and the Department of Social Services (DSS), offers educational resources to child care providers and businesses developing child care programs for their employees and projects to serve close to 7,000 families this year and has a current caseload of over 1,500 families.

Child Care Choices of Boston will provide information that will assist parents in identifying and selecting appropriate child care. CCCB will educate (parents, providers and businesses), develop resources and advocate for improved child care practices and programs in all of Boston's diverse neighborhoods. Approximately 2,000 licensed child care providers will be listed in CCCB's on-line databank including costs of services, hours of operation and assessments of child care supply and demand.

Accordingly to Robert M. Coard, ABCD's Executive Director. "Our goal with this program is to improve and plan for the healthiest development of children and families. We want to help parents make informed child care choices and assist businesses and day care providers create better child care environments for children."

Child care providers will have access to training, technical assistance and resources to improve the quality of service delivery in Boston's neighborhoods. In addition, local businesses will receive information and consultation to help them produce

child care options for their workforce. Focus group discussions will be held throughout the community to stimulate the development of child care in the community.

Rosalie Norman, CCCB's Director said, "We're very excited about this new service. The strength of the child care system is in the diversity and options available to parents. We are committed to providing all possible information to our customers to enable them to make informed decisions."

Action for Boston Community De-

velopment is the largest public, non-profit human service agency in New England and Boston's antipoverty agency, with funding from a variety of sources. ABCD programs include: Head Start, Fuel Assistance, Foster Grandparents, Day Care, Center for Jobs, Education and Career Training, Summer Youth Employment, Urban College Program, and Health Services.

**ECONOMIC DEVELOPMENT AND
INDUSTRIAL CORPORATION OF BOSTON**

Administer CDBG Funds

Dear Mayor Flynn:

Pursuant to the Contract between the Public Facilities Department (PFD) and the Economic Development and Industrial Corporation (EDIC), dated September 4, 1990, by which Contract EDIC was designated to administer Community Development Block Grant (CDBG) funds for the City of Boston; and further, by the vote of the Public Facilities Commission (PFC), dated June 21, 1990, stating that the Director of EDIC is authorized to request from the Mayor, on behalf of the Commission, written authority to enter into contracts with service providers funded under the CDBG program, I respectfully request your Honor's permission to award a contract to the Hawthorne Youth and Community Center, Inc., a non-profit corporation, located at 9 Fulda Street, Roxbury, Massachusetts, 02119. Under the terms of the contract, the Contractor will provide a variety of youth recreational activities to approximately one hundred eighty (180) participants, targeting the Roxbury community.

This program was selected for funding based upon an evaluation of its proposal submitted in response to a publicly advertised Request for Proposals (RFP) issued by the former Mayor's Office of Jobs and Community Services (JCS) on January 24, 1990. Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. The extremely competitive proposal review process focused on a number of selection criteria, including administrative capability, the ability to serve the targeted client population, the need for the proposed services, and conformance with the priorities established by JCS and City residents. The issuance of this proposal document was the culmination of an exhaustive planning process which began in September of 1989. Citizen participation was

crucial, for during the period from November 8, 1989 until December 14, 1989, fourteen (14) neighborhood meetings were held across the entire City to solicit community involvement and input in determining funding priorities, culminating in a City-wide hearing held on January 9, 1990. Notices of these meetings were published in the *Boston Sunday Globe* on November 5, 1989, and the *City Record* on November 13, 1989. The availability of the RFP document was published in the *Boston Sunday Globe* on January 21, 1990.

Compensation under the terms of this contract shall not exceed twenty thousand, three hundred thirty (\$20,330) dollars, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1990 until June 30, 1991. This Contractor has had contracts with this agency for this program for the previous three (3) fiscal years at the following amounts: FY 88-\$24,000; FY 89-\$21,400; FY 90-\$20,330. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised RFP, I believe that further public advertising would serve no useful purpose.

Sincerely,
Donald A. Gillis,
Director.

PUBLIC WORKS DEPARTMENT

Request for Bids for Acceptance of Used Newspaper for Recycling for the period July 1, 1991 to June 30, 1994.

The Commissioner of Public Works of the City of Boston invites bids for acceptance of an estimated 1,000 tons of used newspaper (PSI Grade 6) during the period July 1, 1991 to June 30, 1994. The annual amount during the last two years of the contract is estimated to be 16,000 tons, but due to the start-up of collection programs, the amount during the first year may be somewhat less, and has been estimated at 14,000 tons.

The successful contractor will accept, at a specified location and pricing arrangement per ton, truckloads and/or container loads of loose newspaper from the City's various recycling programs during the three year period. The pricing arrangement for the entire contract period will be an adjustable one, with quarterly adjustment based on the contractor's bid of a spread against the Fibre Market News Boston index for PSI No. 6. Annually, a performance bond of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Commissioner, and in the amount of 100 percent of the annual contract price, will be required of the successful contractor. The Commissioner shall cancel the contract in the event that funds are not appropriated in subsequent years.

The contract documents and forms for bids may be obtained at Room 714 (Contract Office), City Hall during normal business hours (9 a.m. to 5 p.m., Monday to Friday) beginning March 25, 1991 and continuing until the bid opening date specified below. There will be a charge of five dollars (\$5). **NOT REFUNDABLE**, for each set of contract documents taken out. For this procurement, the Department will mail out sets of contract documents upon receipt of a written request identifying the bidder of record and a check for twenty-five dollars (\$25) for each set requested.

The contract documents consist of an Original Bid book including separate Price Bid and Non-Price Bid pages. The Original Bid with Non-Price Bid Page should be signed, a certified, treasurer's, or cashier's check in the amount of the bid guaranty attached, enclosed in an envelope, sealed, clearly marked "Bids for Acceptance of Used Newspaper for Recycling for the period July 1, 1991 to June 30, 1994," and left at Room 714 (Contract Office), City Hall, before 2 p.m. of Thursday, April 11, 1991. The Price Bid Page should be sealed in a separate envelope, marked as above, and left with the Original Bid envelope. All bids must be from bidders of record (those who have purchased contract documents) on file at Room 714, City Hall. Bid guaranty shall consist of a deposit of five (5) percent of the total bid price.

Bids will be accepted until 2 p.m. Thursday, April 11, 1991. The non-price bids will then be privately opened and read in the Commissioner's Office, Room 714, City Hall, under procedures in compliance with MGL Chapter 30B, the Uniform Procurement Act. The price bids shall be opened subsequent to the complete evaluation of the non-price bids. The basis for evaluation of the price bids shall be the named dollar amounts of the spread against the index on which the price adjustment will be made. The maximum time for acceptance of a bid

by the Commissioner of Public Works is ninety (90) days after the opening of bids. The Commissioner, acting for the City of Boston, reserves the right to reject any and all bids.

Anti-discrimination Provisions. During the performance of this contract the general contractor shall agree and shall require that his subcontractors (if any) agree to the following:

In connection with the performance of work under this contract the contractor shall not discriminate against any employee or applicant for employment because of race, color, religious creed, national origin, age or sex. The aforesaid shall include but not be limited to: employment, recruitment, advertising, upgrading, demotion or transfer, layoff, termination, rates of pay or other compensation, conditions or privileges of employment, and selection for apprenticeship.

Before commencing performance of this contract, the contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (Workmen's Compensation Law, so-called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract.

A CALL TO ACTION

March, 1991

Dear Friend:

Shortsighted state and federal budget cuts are threatening to undo the progress we have made in restoring quality services for the people who live and work in Boston. It is time to fight back. And to fight back effectively, we must fight back together. Boston and other cities and towns did not create the budget deficit crisis at the state and federal level. In fact, we have spent within our means year after year at the city level. We cannot accept the attempt by the state and federal governments to solve their fiscal problems at our expense.

Together, for the last seven years, we have worked hard to improve the delivery of basic city services. We have been able to restore our parks and playgrounds, provide care for the homeless, increase the number of police officers, reduce the number of multiple alarm fires to the lowest level in decades, clean and repair our streets, and provide health care to our neediest citizens.

I have promised that public safety, education, youth and vital health care services will remain a priority. These areas make up the bulk of the City's budget. The massive cuts in local aid will therefore have to be shouldered by a very small portion of the City's budget. Valuable City departments such as Libraries, Parks and Recreation, Public Works, and Inspectional Services will be substantially impacted by these cuts.

You as citizens deserve to be informed. You have a right to understand how the local aid cuts will hurt you, your family, and your neighbors. The following pages will familiarize you with the structure of Boston's budget, the fiscal management policies which have enabled Boston to maintain a balanced budget for the last six years, and how state cuts in local aid are threatening to undo the progress we have made.

After carefully reviewing the following information, I ask you to join me in the effort to persuade the state legislature and the Governor that this situation is intolerable. This means calling and visiting your state representatives and senators to protest local aid cuts and to insist on greater financial independence for cities and towns.

In closing, it is important to realize that we are all in this together. It is only by recognizing the danger we face that we can begin to work together to protect the services that are so important to the City of Boston.

Sincerely,
Raymond L. Flynn,
Mayor of Boston.

THE ADOPT-A-STATUE PROGRAM

The goal of Adopt-A-Statue is to achieve funding for the restoration of thirty-nine pieces of outdoor public art and to establish a permanent maintenance endowment which would provide for the annual cleaning and maintenance of sixty-nine pieces.

To invite individuals, groups of individuals or corporations to "adopt" a piece of Boston outdoor public art by either:

- incurring the total cost of restoring and maintaining a particular piece of art or
- making a donation toward a general restoration and maintenance fund.

Gifts are tax deductible to the extent limited by law.

For further information on how to adopt a statue please contact the Environment Department at 725-3850 (Paula Mierzejewski) or Office of Arts and Humanities at 725-3245 (Mary Shannon).

Each week the *City Record* will publish a statue for adoption.

BOSTON'S ROLE IN THE MASSACHUSETTS ECONOMY

The City of Boston is the engine which drives economic growth in Massachusetts and the heart of the New England economy. The City is home to the financial, tourist, cultural, educational, and health industries that make the Massachusetts economy work. Playing host places a heavy burden on City services. Boston is called upon to provide necessary support services — such as police, fire, and public works — for the entire City from its own operating budget.

- The City of Boston's population virtually doubles every day with one of six Massachusetts residents depending on Boston's economy for a job.

- Fifty percent of the City's land is tax-exempt, with 26% of the land being state-owned. This means that tax exempt institutions such as hospitals, universities, and the State government itself use City services essentially for free. These institutions make an invaluable contribution to the economic health of the entire metropolitan area, yet the City services they use are funded by the Boston budget.

- Boston attracts nearly 9 million tourists every year who spend \$3.5 billion and generate almost \$200 million in tax revenues to the State.

- Boston hosts 33 colleges, and 9 of America's top teaching hospitals. These institutions support valuable research and new technology which translate into the development of new local industries which are necessary for Massachusetts' economic recovery.

- Boston hosts 3 professional sports teams, 12 theaters, and 15 museums.

BROKEN PROMISES

Since the passage of Proposition 2-1/2, there has been a compact between the Commonwealth and cities and towns which recognized that municipalities need an alternative to the

property tax in order to provide basic public services.

Throughout the 1980s, local aid kept pace with increases in the cost of vital municipal services and thus became an integral part of each community's revenue base.

For the last two years, repeated local aid cuts have violated that agreement. The revenue stream has been steadily disappearing. And now, Governor Weld is abandoning his campaign pledge not to cut local aid and to actively work to increase local aid to cities and towns.

Drastic cuts in local aid recently announced by the Governor will cripple the ability of cities and towns to deliver critical services upon which the citizens of Massachusetts rely. Given the increase in total State spending, excluding local aid, it is unfair to ask cities and towns to take a disproportionate cut.

- The Weld administration plans to cut local aid by 10% — or \$110 million more. This cut comes on top of \$300 million in local aid cuts already made over the past two years.

- With the exception of higher education, local aid has been the hardest hit expenditure category in the entire state budget.

NAME: CREATURE POND

LOCATION: Post Office Square Park
Congress Street

ARTIST: CityLife-Boston

DATE OF FABRICATION: 1982

MATERIAL: Bronze on granite base

BACKGROUND: A group of artists, including Sydney Rockefeller, Don Burg, David Phillips, Bob Guillema (Sidewalk Sam), Bill Wainwright and Lowry Burges created this bronze pond which includes ducks, dragonflies and frogs. The "Pond" is part of Post Office Square Park.

CONDITION: Good.

REQUIRED: RESTORATION AND MAINTENANCE

- The local aid proposals by the Weld Administration disproportionately impact the City of Boston. Boston is being asked to shoulder 30% of the total aid reduction in the state, while the City only represents 10% of the State's overall population.

- At the same time, the Weld Administration turned its back to nearly \$200 million that would have been generated by the professional service tax. This tax would have been paid by lawyers, architects, accountants as well as other professionals, who benefited the greatest from the economic boom of the 1980s. Instead poor and working class families will pay when vital public services they rely on are eliminated.

- Since 1984, state spending has grown at twice the rate of city spending. If the State had controlled spending as we did and increased the same percentage rate as the City of Boston, today the State would have a billion dollar surplus rather than a billion dollar deficit.

Two other factors have also been putting a strain on Boston's finances — the recession and federal aid reductions.

- The recession which is hitting the pocketbooks of families in our region is having a similar effect on City revenues. The slow down in

new construction and weak real estate markets has had a direct impact on City revenues.

- In Boston, we have also witnessed an overall federal aid reduction from about \$150 million in 1981 to about \$64 million today. In 1981, the City received nearly \$22 million in federal revenue sharing to support general operating costs. Revenue sharing disappeared in 1988.

In the same period, Washington slashed assistance by over 70% — from over \$33 billion to less than \$10 billion nationwide. The result — growing homelessness among the poor and a decline in home ownership among the middle class, particularly among young families. In the last eight years, the number of shelter beds in Boston has grown from 72 to 3,422, a 252% increase.

As a result of the State's broken promises and because of our commitment to balancing our budget, the City will be forced to make severe spending cuts which will affect the delivery of basic city services, that will, in turn, affect the lives of Boston families.

- With the exception of the schools, public safety, critical health care, and youth service programs, all other basic service departments will face budget cutbacks ranging from 9-15%.

- The City's workforce may be reduced by up to 1,500 positions by the end of FY92.

MAKING TOUGH CHOICES AND SETTING PRIORITIES

For the last seven years, Boston has managed to keep its fiscal house in order and its books balanced because we were capable of making some tough decisions. As a result, Boston has balanced six consecutive budgets in a row.

- There were fewer overall city employees, with the exception of the School Department, on January 1 of this year than there were January 1, 1984. By comparison, the State payroll swelled by 13,000 in the same period.

- In the past two consecutive years, 43 city departments have reduced spending by an average of 4-6% in order to keep the City's budgets balanced.

- Despite fewer employees and reduced spending, the City was able to enhance the performance of the departments and increase its delivery of vital neighborhood services.

The City has remained committed to a balanced budget because we know that fiscal responsibility and a good credit rating are essential to the continued economic health of Boston. Boston has been rewarded by Wall Street rating agencies for tightly managing our budget and spending within our means.

- Boston is the only major northeastern city with a bond rating increase since the recession started in 1988. By comparison, the State's bond ratings have fallen to nearly "junk" bond level.

- Both Moody's and Standard & Poor's have given Boston's bonds an "A" rating. This excellent rating translates into favorable interest rates, saving millions of tax-payer dollars. These factors support capital investments which mean the renovation of Boston's schools, parks, police and fire stations, and health care facilities.

BOSTON'S BUDGET

WHERE DOES THE MONEY COME FROM?

The City of Boston has four major sources of revenue: property tax levy, local aid (Cherry Sheet) distributions, Health and Hospitals revenue from charges for patient care, and departmental income. In the coming fiscal year, each of the four major sources of revenues will be affected by either proposed cuts at the state level or the recession.

- In FY92, the downturn in the economy means the smallest increase in revenue from property tax levies related to new construction in the last eight years.

- The biggest single item in the Cherry Sheet distribution is local aid. Our current estimates predict that Boston will face a \$28 million reduction.

- Health and Hospitals revenue from charges for patient care is likely to be affected by proposed changes in Medicaid reimbursements.

- Departmental revenues, which include licenses, building permits, PILOT payments and parking fines, are expected to drop by an estimated \$20 million in FY92.

HOW IS THE MONEY SPENT?

FIXED COSTS

The City has basic financial and legal obligations that we can not control. These fixed costs, which represent 20% of the total budget, include:

- pensions** — the City's contribution to the employees' retirement plan;

- debt service** — outstanding bonds to finance the City's Capital Improvement Plan for municipal and school facilities;

- state assessments** — these support MBTA operations.

DEPARTMENTAL EXPENDITURES

These funds, appropriated yearly by the Boston City Council, reflect the ongoing operating costs of City government. Five departments (Schools, Health and Hospitals, Police, Fire, and Public Works) represents 77% of all departmental expenditures.

THE BUDGET SHORTFALL

As we prepare the City's operating budget for the new fiscal year (FY92), which begins this July, the City is confronting an anticipated revenue loss of \$34-38 million; an increase in fixed expenses of \$12-16 million; and needed increases in departmental expenditures of \$12-17 million. These three factors taken together would leave the City with a budget shortfall of \$58-71 million.

REVENUE LOSS

While the City is anticipating moderate increases in property taxes, some excise taxes, and teacher pension reimbursements, these will be offset by major decreases in local aid, departmental revenues, hospital revenues, some excise taxes, and fund balances. These predicted increases and decreases combined indicated a net revenue loss of \$34-38 million.

FIXED EXPENSE INCREASE

Fixed expenses which include pension costs, debt service, and MBTA costs are anticipated to increase at a moderate rate. In FY92, this increase is expected to cost the City an additional \$12-16 million over FY91.

DEPARTMENTAL INCREASE

A few appropriations, including health insurance, workmen's compensation, execution of courts, the Penal Department, and the Emergency Shelter Commission, should increase. The total increase in departmental expenditures would cost the City \$12-17 million more in FY92 than in FY91.

HOW WILL REVENUE LOSS IMPACT THE CITY BUDGET?

This budget gap means the hardest times for the people of Boston since the days of Proposition 2-1/2. To maintain the City's basic commitment to public safety, health care, education, and youth services — functions that consume the major portion of the budget — other functions of the City such as street cleaning, libraries, and parks are going to have to be substantially cut back.

- Basic City services will be cut by 6% on the average.

- Public Works, Libraries, Parks, the Elderly Commission, and Inspectional Services will be cut by 9-24%.

- Two-thirds of the City's administrative departments will be cut by 15-53% with total administrative expenses for the City reduced by 22%.

A CALL TO ACTION

While the City has been tightening its belt, the State and Federal Governments have been running deficits. Despite our responsible management, we are being asked to shoulder the results of their unchecked spending.

Cities and towns in the long run will need greater independence to raise their own revenues. This way, they will be able to manage effectively, attain fiscal stability, and avoid the terrible human costs that result from the all-too-familiar annual fiscal crisis.

One of these crisis is immediately before us — the cuts in local aid. Governor Weld must acknowledge the will of the people who voted "yes" on Question 5. The approval of Question 5 was the citizens' direct call that basic services provided by cities and towns are essential and should not be abandoned.

WHAT CAN YOU DO?

First, be informed.

- Learn all you can about how the local aid cuts will hurt you, your family, and your neighbors.

Second, call Governor Weld.

- Let him know that you expect him to keep his campaign promise and to respect the will of the people expressed in their vote on Question 5 — to make no cuts in local aid.

Third, call your State Representatives and Senators.

- Express your feelings about local aid. Thank those who have opposed local aid cuts. Urge those who have supported local aid cuts to reconsider. Insist on greater independence for cities and towns to raise their own revenues.

WHAT WILL WE DO?

Restoring Governor Weld's local aid cuts means restoring City services.

The Mayor commits to increase his budget for:

- Public Safety
- Education
- Youth
- Health Care
- Parks
- Libraries
- Public Works

and other critical City services if local aid is level funded.

WEST ROXBURY DISTRICT

This project is part of Mayor Flynn's five-year capital improvement plan, "Rebuilding Boston," a \$986 million investment plan for the City of Boston. This plan, prepared by the Office of Capital Planning, represents the Mayor's commitment to rebuilding, upgrading and renovating schools and public libraries,

parks and open spaces, police and fire stations, roadways and sidewalks, and public safety equipment.

CONTRACTS AWARDED AFTER ADVERTISING ("Requests for Proposals") ("Requests for Qualifications") ("Technically Deficient Bids")

The Mayor has approved the awarding of the contracts based on the following communications:

ECONOMIC DEVELOPMENT AND
INDUSTRIAL CORPORATION OF BOSTON

Administer CDBG Funds

16046-91

September 4, 1990

Dear Mayor Flynn:

Pursuant to the contract between the Public Facilities Department (PFD) and the Economic Development and Industrial Corporation (EDIC), dated September 4, 1990, by which contract EDIC was designated to administer Community Development Block Grant (CDBG) funds for the City of Boston; and further, by the vote of the Public Facilities Commission (PFC), dated June 21, 1990, stating that the Director of EDIC is authorized to request from the Mayor, on behalf of the Commission, written authority to enter into contracts with service providers funded under the CDBG program, I respectfully request your Honor's permission to award a contract to F.I.R.S.T., Inc., a non-profit corporation, located at 34 Intervale Street, Dorchester, MA 02121. Under the terms of the contract, the contractor will provide alcohol and substance abuse counseling to approximately three hundred (300) low to moderate income clients and their families.

This program was selected for funding based upon an evaluation of its proposal submitted in response to a publicly advertised Request for Proposals (RFP) issued by the former Mayor's Office of Jobs and Community Services (JCS) on January 24, 1990. Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. The extremely competitive proposal review process focused on a number of selection criteria, including administrative capability, the ability to serve the targeted client population, the need for the proposed services, and conformance with the priorities established by JCS and City residents. The issuance of this proposal document was the culmination of an exhaustive planning process which began in September of 1989. Citizen participation was crucial, for during the period from November 8, 1989 until December 14, 1989, fourteen (14) neighborhood meetings were held across the entire City to solicit community involvement and input in determining funding priorities, culminating in a City-wide hearing held on January 9, 1990. Notices of the these meetings were published in the *Boston Sunday Globe* on November 5, 1989, and the *City Record* on November 13, 1989. The availability of the RFP document was published in the *Boston Sunday Globe* on January 21, 1990.

(Continued on next page)

Compensation under the terms of this contract shall not exceed twenty-five thousand, one hundred seventy-five (\$25,175.00) dollars, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1990 until June 30, 1991. This contractor has had contracts with this agency for this program for the previous three (3) fiscal years at the following amounts: FY 88 — \$29,500; FY 89 — \$26,500; FY 90 — \$25,175. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised RFP, I believe that further public advertising would serve no useful purpose.

Sincerely,
Donald A. Gillis

A copy of this directory can be obtained from the Awarding Authority or the Minority Business Office, 174 North Street, ground floor, Boston, MA 02109, telephone number 723-1400. If a contractor wishes to use a minority business that is not listed in the directory, he must contact the Minority Business Office to obtain a copy and submit with his bid a Minority Business Identification Statement. A dollar amount obligated to a non-certified (City of Boston) minority business will not count toward the minority business percentage requirements II. Workforce Requirements.

If you have any questions pertaining to the applicability of these requirements, please call the Compliance Office at 723-1400.

NOTICE OF REQUIREMENT FOR AFFIRMATIVE ACTION TO ENSURE EQUAL EMPLOYMENT OPPORTUNITY (EXECUTIVE ORDER 11246).

The contractor's attention is called to the "Equal Opportunity Clause" and "Standard Federal Equal Opportunity Construction Contract Specification" set forth in this part.

The goals and timetables for minority and female participation are expressed in percentage terms of the contractor's aggregate workforce in each trade on all construction work in the covered areas. (See pages EEO-1 and EEO-2 of the bid specification for goals and timetables.)

These goals are applicable to all the contractor's construction work (whether or not it is federal or federally assisted) performed in the covered area.

The contractor's compliance with the Executive Order and the regulations in 41 CFR Part 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific affirmative action obligations required to meet the goals established for the geographical area where the contract is to be performed.

The hours of minority and female employment and training must be substantially uniform throughout the length of the contract in each trade, and the contractor shall make a good-faith effort to employ minorities and women evenly on each of its projects.

The transfer of minority or female employees or trainees from contractor to contractor or from project to project for the sole purpose of meeting the contractor's goals shall be a violation of the contract, the Executive Order and the regulations in 41 CFR Part 60-4. Compliance with the goals will be measured against the total workhours performed.

The attention of all bidders is specifically directed to the provisions of the contract documents, including, with limitation, the notice to all bidders (including subbidders), and the provisions with respect to bonds, insurance, equal employment opportunity, minimum wages, time of performance, liquidated damages, and the requirements set forth in the specifications on supplemental equal employment opportunity, anti-discrimination and affirmative action program contract provisions, and the requirements of mandatory compliance with Section 3 of the Housing and Urban Development Act of 1968 and Executive Order 11246.

Planning

The Camp Joy program involves year-round planning. The department

disseminates information regarding the program and coordinates with other agencies in the City of Boston which service children and adults with specific disabilities. A program schedule is thoroughly planned prior to each season. The program schedule includes special events such as a camp-wide picnic, harbor cruises and overnight camping experiences.

Staff

Special care is given to maintaining a qualified and dedicated staff. Each Camp Joy participant is supervised by a professionally trained individual who has a background in special education as well as therapeutic recreation. All candidates for counselor positions are screened according to their motivation, education, experience and specific talents.

Philosophy

The Major philosophy of Camp Joy is that "individuals learn while they play." In keeping with this philosophy, an individualized recreation plan is written and implemented for each participant. Such plans allow staff and participants to "play with a purpose." Each participant is evaluated relative to goals and objectives

listed in their recreation plan. These evaluations are forwarded to parents and kept on file at the Camp Joy office. These evaluations allow for the accurate charting of each participant's yearly growth.

Information

Boston Community Schools will gladly forward more detailed information on all the Camp Joy programs. Information may be requested by calling 725-4920 or by writing to Camp Joy, Boston Community Schools, 1010 Massachusetts Avenue, Boston, MA 02118.

SKINSAVERS '91 INFORMATION FAIR

By Gerry Wise, R.N.

The American Cancer Society is sponsoring a statewide skin cancer screening and informational series during the months of April and May.

On Friday, May 3, 1991, I will be in City Hall Lobby from 10:00 A.M. to 2:00 P.M. I will be distributing informational pamphlets, showing a video and referring visitors to dermatologists for evaluation.

You are cordially invited to drop by and learn some interesting facts about skin safety and cancer prevention.

Did you know there are over 600,000 cases of skin cancer each year? A vast majority of which are highly curable basal cell or squamous cell cancers.

The most serious skin cancer is melanoma, which will be diagnosed in about 32,000 persons in 1991.

Did you know there is no such thing

as a healthy tan? A tan is the body's response to injury by the sun.

Did you know that a wet tee shirt, while more effective than no coverup at all, allows 20-30 percent of the UV light to pass to the skin?

Did you know that because of our close location to the equator, the people in Massachusetts should always wear a sunscreen with a SPF of at least 15?

Keep infants out of the sun. Did you know you should start using sunscreen on children at six months of age, and then allow sun exposure with moderation.

For more information, drop by on May 3.

CONTRACTS AWARDED AFTER ADVERTISING ("Requests for Proposals") ("Requests for Qualifications") ("Technically Deficient Bids")

The Mayor has approved the awarding of the contracts based on the following communications:

16053-91

September 4, 1990

Dear Mayor Flynn:

Pursuant to the Contract between the Public Facilities Department (PFD) and the Economic Development and Industrial Corporation (EDIC), dated September 4, 1990, by which Contract EDIC was designated to administer Community Development Block Grant (CDBG) funds for the City of Boston; and further, by the vote of the Public Facilities Commission (PFC), dated June 21, 1990, stating that the Director of EDIC is authorized to request from the Mayor, on behalf of the Commission, written authority to enter into contracts with service providers funded under the CDBG program, I respectfully request your Honor's permission to award a contract to Boston Community Services, Inc., a non-profit corporation, located at 780 American Legion Highway, Roslindale, Massachusetts, 02131. Under the terms of the contract, the Contractor will provide educational, career, and general counseling services to approximately fifty four (54) area youths.

This program was selected for funding based upon an evaluation of its proposal submitted in response to a publicly advertised Request for Proposals (RFP) issued by the former Mayor's Office of Jobs and Community Services (JCS) on January 24, 1990. Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. The extremely competitive proposal review process focused on a number of selection criteria, including administrative capability, the ability to serve the targeted client population, the need for the proposed services, and conformance with the priorities established by JCS and City residents. The issuance of this proposal document was the culmination of an exhaustive planning process which began in September of 1989. Citizen participation was crucial, for during the period from November 8, 1989 until December 14, 1989, fourteen (14) neighborhood meetings were held across the entire City to solicit community involvement and input in determining funding priorities, culminating in a City-wide hearing held on January 9, 1990. Notices of these meetings were published in the *Boston Sunday Globe* on November 5, 1989, and the *City Record* on November 13, 1989. The availability of the RFP document was published in the *Boston Sunday Globe* on January 21, 1990.

Compensation under the terms of this contract shall not exceed sixteen thousand (\$16,000.00) dollars, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1990 until June 30, 1991. This Contractor has had contracts with this agency for this program for

the previous two (2) fiscal years at the following funding amounts: FY 89-\$20,000; FY \$16,000. This request has been delayed due to the length of time involved in the funding view process, and due to the recent merge JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised RFP, I believe further public advertising would serve no useful purpose.

Sincerely,

Donald A. Gillis,
Director

HOPE IN PROGRESS

*Director of Boston's Community Schools
William Doherty Outlines H.I.P.*

The goal of Boston Community Schools and Recreation Centers' Hope in Progress (HIP) Gang Deterrent Program is to keep at-risk youths safe, off drugs and out of gangs. Recognizing the spread of youth gangs along the east coast, Community Schools developed HIP during the spring of 1989 and received funding from the United States Department of Health and Human Services that October.

William Doherty,
Director, Community Schools

YOUTH

HIP targets 300, 10-14 year-old males and females at-risk of joining gangs and living in the Roxbury, Mattapan, Dorchester and Jamaica Plain neighborhoods of Boston. They are usually referred to HIP through the juvenile court system, the police, the school department, youth workers or parents. To date, the program has served more than 450 youths.

Youths are enrolled in HIP for a period of 9 to 12 months and receive a variety of comprehensive services through a case management approach. In addition, HIP participants are encouraged to participate in all activities and programs offered at Boston Community Schools' sites.

SERVICES

The Hope in Progress (HIP) Program provides:

- Counseling
- Health Services
- Education
- Recreation
- Cultural enrichment
- Referrals

(Continued on next page)

Hope in Progress . . .

(Continued from page one.)

There is a concerted effort to recruit and prioritize services to adolescent females. Most activities are co-ed, however, special programs for females include:

- Dancing
- Aerobics
- Mentoring
- Life Skills
- Support Systems

HIP encourages parents, legal guardians and concerned adults to participate in:

- Local Consortium Councils
- Parent Support Groups
- Field Trips
- Parents's Night Events

OBJECTIVES

The objectives of the HIP Program include keeping the young men and women:

- In School
- Drug/Alcohol Free
- Out of Court
- Out of Gangs

The HIP Program wants kids to have fun, feel safe, do well in school and become positive role models for others.

For more information about HIP, call your local site or Boston Community Schools and Recreation Centers' central office at 725-4920.

Ingrid Bergman won her second Academy Award for her brilliant performance as an amnesiac refugee chosen by Yul Brynner to impersonate the surviving daughter of Russia's last czar. She evolves from a timid, frightened, starved creature into a regal princess glowing with beauty in a screen resurrection that parallels the professional one that this role meant for Bergman's career. Her complex emotional portrayal reaches its climax in a highly intense confrontation with Helen Hayes who, as the Grand Duchess, must determine if she is really Anastasia.

Supporting players: Akir Tamiroff, Martita Hunt, Felix Aylmer, Natalie Shafer. Presented by The Never Too Late Group as part of "The Ingrid Bergman Film Festival," screened on the third Thursday of the month through June. June 21: "Autumn Sonata."

CONTRACTS AWARDED AFTER ADVERTISING

("Requests for Proposals")
("Requests for Qualifications")
("Technically Deficient Bids")

The Mayor has approved the awarding of the contracts based on the following communications:

ECONOMIC DEVELOPMENT AND INDUSTRIAL CORPORATION OF BOSTON

Administer CDBG Funds

16058-91

September 4, 1990

Dear Mayor Flynn:

Pursuant to the contract between the Public Facilities Department (PFD) and the Economic Development and Industrial Corporation (EDIC), dated September 4, 1990, by which contract EDIC was designated to administer Community Development Block Grant (CDBG) funds for the City of Boston; and further, by the vote of the Public Facilities Commission (PFC), dated June 21, 1990, stating that the Director of EDIC is authorized to request from the Mayor, on behalf of the Commission, written authority to enter into contracts with service providers funded under the CDBG program, I respectfully request your Honor's permission to award a contract to South Boston Neighborhood House, Inc., a non-profit corporation, located at 521 East Seventh Street, South Boston, MA 02127. Under the terms of the contract, the contractor will provide educational, recreational and vocational counseling services to approximately sixty-five (65) area youths.

This program was selected for funding based upon an evaluation of its proposal submitted in response to a publicly advertised Request for Proposals (RFP) issued by the former Mayor's Office of Jobs and Community Services (JCS) on January 24, 1990. Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. The extremely competitive proposal review process focused on a number of selection criteria, including administrative capability, the ability to serve the targeted client population, the need for the proposed services, and conformance with the priorities established by JCS and City residents. The issuance of this proposal document was the culmination of an ex-

haustive planning process which began in September of 1989. Citizen participation was crucial, for during the period from November 1989 until December 14, 1989, fourteen (14) neighborhood meetings were held across the entire City to solicit community involvement as input in determining funding priorities, culminating in a City-wide hearing held on January 1990. Notices of these meetings were published in the *Boston Sunday Globe* on November 5, 1989, and the *City Record* on November 19, 1989. The availability of the RFP document was published in the *Boston Sunday Globe* on January 21, 1990.

Compensation under the terms of this contract shall not exceed fifteen thousand (\$15,000.00) dollars, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1990 until June 30, 1991. This contract has had contracts with this agency for this program for the previous three (3) fiscal years at the following amounts: FY 88 — \$24,500; FY 89 — \$21,800; FY 90 — \$20,719. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitively publicly advertised RFP, I believe that further public advertising would serve no useful purpose.

Sincerely,
Donald A. Gillis
Director

CITY OF BOSTON

Proceedings of City Council

Wednesday, September 12, 1990.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 1 p.m., President IANNELLA in the chair. Absent, Councillor TRAVAGLINI.

INVOCATION

The Reverend Thomas J. Reilly, St. Catherine's Church, Charlestown, gave the invocation, and the meeting was opened with the salute to the flag.

DISAPPROVING ORDER AUTHORIZING CITY CLERK TO DISTRIBUTE VOLUME I OF CODIFIED ORDINANCES AND SUPPLEMENTS THERETO AT PRICE TO BE DETERMINED FROM TIME TO TIME BY CLERK

The following was received:

City of Boston
Office of the Mayor

August 27, 1990.

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body August 8, 1990, Docket Number 0934, which would authorize the City Clerk to distribute Volume I of the codified ordinances and the supplements thereto at a price to be determined from time to time by the City Clerk.

The reason for my disapproval is that, pursuant to St. 1949, c. 222, s. 1, the City of Boston may fix fees and charges by ordinance. I know of no authority for allowing the City Clerk by mere order of the City Council to set prices from time to time for the codified ordinances and supplements, which the order purports to do. I have instructed my liaison to the Council to work with the Council should it wish to submit an ordinance which sets an amount to be charged for such documents.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

Assigned for further action.

DISAPPROVING ORDINANCE AMENDING CHAPTER 5, SECTION 5-1.10, CITY DOCUMENTS

The following was received:

City of Boston
Office of the Mayor

September 4, 1990.

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an ordinance passed by your Honorable Body August 15, 1990, Docket Number 0958, which would amend City of Boston Code, Ordinances, Chapter V, Section 5-1.10, to allow for a ten dollar charge for each copy of the publications Boston's

Streets and City of Boston, Municipal Register.

I agree with the Council that the charges for the publications are appropriate. However, I am concerned, from a fiscal accountability point of view, that the ordinance creates ambiguity as to who is to collect the proceeds from the publications and where those proceeds are to be deposited.

I have enclosed a draft ordinance which addresses my concerns. The draft provides that the monies from the two publications, as well as the recently published City of Boston Code, Volume I, Ordinances, and the supplements thereto, shall be deposited in the General Fund. Please note that the draft also provides that it is the City Clerk who is to distribute the publications. The Council may determine that some other person is more appropriate to distribute the publications and to collect and deposit the charges therefor.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the documentation referred to.)

Assigned for further action.

DISAPPROVING ORDER DIRECTING PURCHASING AGENT TO IMMEDIATELY PURCHASE AND STORE ADEQUATE SUPPLY OF OIL FOR CITY BUILDINGS IN ANTICIPATION OF RISING FUEL COSTS

The following was received:

City of Boston
Office of the Mayor

September 10, 1990.

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on August 22, 1990, Docket No. 0988. That order would direct the City Purchasing Agent to immediately purchase and store an adequate supply of oil for City buildings in anticipation of rising fuel costs. Additionally, that order would direct the City Council to file legal actions against private oil and gasoline suppliers to roll back prices where price gouging has occurred and to notify such suppliers of the City's intent to file legal actions should price gouging occur.

My reasons for disapproval are twofold. First, this problem has been addressed at the state level. The Attorney General has recently promulgated regulations making it an unfair or deceptive act or practice under the Massachusetts Consumer Protection Act (the Act) for any petroleum-related business to engage in price gouging during a market emergency. (See G. L. c. 93A, s. 2). These regulations deal with the subject of price gouging in a uniform and comprehensive manner, and enable the Attorney General of the Commonwealth to bring an action in the public interest if he has reason to believe that a petroleum-related business is selling or offering to sell any petroleum product at an unconscionably high price.

Additionally, the provision of the order directing the City Purchasing Agent to arrange for the immediate purchase and storage of oil violates the City Charter provision which prohibits the City Council from taking part in the conduct of the executive or administrative business of the City. (See, St. 1948, c. 452, a. 17G as appearing in St. 1951, c. 376, s. 1).

Although I am in complete agreement with the Council regarding the importance of preventing price gouging by the suppliers of petroleum products, I am

confident that the Attorney General will continue to take whatever steps are necessary to protect the public interest.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

Assigned for further action.

ORDER AUTHORIZING CITY TO APPLY FOR, ACCEPT AND EXPEND \$1,000,000 IN CDAG FUNDS FOR HARBOR GATEWAY/BERTH 10 INDUSTRIAL DEVELOPMENT PROJECT AT BOSTON MARINE INDUSTRIAL PARK

The following was received:

City of Boston
Office of the Mayor
September 11, 1990

To the City Council.

Dear Councillors:

I transmit herewith for your approval an order authorizing the City of Boston to apply for, accept and expend funds under the Commonwealth's Community Development Action Grant (CDAG) Program.

If approved, EDIC, on behalf of the City of Boston, will submit an application for a \$1 million CDAG for the Harbor Gateway/Berth 10 industrial development project at the Boston Marine Industrial Park. The CDAG funds will allow the City of Boston to reconstruct badly dilapidated deep-water pier and clear the site so that new industrial facilities can be constructed for seafood processors and printers.

The Harbor Gateway/Berth 10 industrial development project, when completed, will provide 665 jobs for Boston residents and significantly strengthen Boston's manufacturing sector by providing quality, affordable space. As you know, Boston faces several major challenges to its economic prosperity. Our

manufacturing sector, which provides thousands of good jobs for Boston's residents, has been particularly affected by recent economic problems. Projects like Harbor Gateway/Berth 10 have a positive economic impact for the City far beyond the jobs they directly generate. They help send a signal that Boston is a healthy city which encourages economic growth.

The CDAG will play a particularly important part in making this project a reality by reducing the cost of infrastructure improvements to a level which allows the developer to charge reasonable rent for quality industrial space. In addition to the site clearance and pier improvements, the CDAG will help fund the construction of a small public waterfront park adjacent to the development site.

I urge your Honorable Body to pass this order which will make this project possible.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

Whereas, The Massachusetts Executive Office of Communities and Development has issued a request for proposal for the Community Development Action Grant Program; and

Whereas, The Economic Development and Industrial Corporation of Boston, acting on behalf of the City of Boston, requires funding up to \$1 million for the development of the Harbor Gateway/Berth 10 industrial project in South Boston; and

Whereas, The Harbor Gateway/Berth 10 industrial development project will create 665 jobs; and

Whereas, The Mayor has submitted to the City Council an application for this project; Now, therefore, be it

Ordered, That the Mayor, acting on behalf of the City of Boston, be, and hereby is, authorized to apply for financial assistance from the Massachusetts Executive Office of Communities and Development under the Community Development Action Grant Program, in an amount of not to exceed one million dollars (\$1,000,000); and in connection therewith to execute and deliver such documents as may be required by the Commonwealth of Massachusetts in connection with said application; and pursuant to G. L. c. 44, Section 53A, to accept and expend such funds and to do all things necessary and convenient in connection with such acceptance and expenditure in conformance with said application and grant.

Referred to the Committee on Planning and Development.

To the City Council.

Dear Councillors:

I transmit herewith for your approval an order appropriating \$9,071,952 of the total \$18,628,934 certified as available by the Director of Accounts to meet the current expenses of the City of Boston and the County of Suffolk. Approval of this order will offset reductions in Boston's state aid enacted by the legislature in July, 1990, and will assure that the City's FY91 budget remains in balance.

By statute the Department of Revenue cannot certify a municipal tax rate until budgeted expenditures are matched by available revenues. Your action on this Order will also help assure timely certification of the tax rate and collection of the property tax levy.

In recent years, the amount of budgetary fund balance available for appropriation has been certified in mid-winter after the City's prior fiscal year balance sheet has been finalized. This year, in order to offset cherry sheet reductions, the City has requested certification based on an estimated balance sheet. This early certification will allow us to maintain the services provided in the City's FY91 budget. We cannot let these services to the people of Boston be reduced while resources are available to maintain them.

Using the budgetary fund balance to offset state aid reductions means that these funds will not be available for supplemental appropriations as they have been in the past. We will be monitoring expenditures even more carefully with this constraint in mind.

Adequate revenue growth for City remains threatened by continued state fiscal difficulties. Until the City is given broader authority to raise revenues independently, we should continue to take advantage of available resources to maintain needed City services.

I respectfully recommend adoption of this order by your Honorable Body.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

Whereas, In July, 1990, the legislature reduced the amount of state aid to be provided to the City of Boston below the amount estimated to be available to support the City's FY91 budget, as approved by the City Council on June 27, 1990; and

Whereas, Without additional revenue available to offset this reduction the City's FY91 budget will be in deficit; and

Whereas, Available funds or free cash have been certified as sufficient to offset this reduction; now, therefore be it

Ordered, That to meet the current expenses of the City of Boston and County of Suffolk for the fiscal year commencing July 1, 1990 and ending June 30, 1991, the sum of NINE MILLION SEVENTY-ONE THOUSAND NINE HUNDRED FIFTY-TWO DOLLARS (\$9,071,952) be appropriated within the meaning of Section 23 (b) of Chapter 59 of the General

Laws from available funds on hand as certified by the Director of Accounts.

Referred to the Committee of the Whole.

MEETING OF COMMITTEE OF THE WHOLE

Coun. MENINO moved that the City Council recess later in the session for a meeting of the Committee of the Whole to discuss the foregoing order.

The motion was carried, yeas 12, nays 0:

SPECIAL COMMITTEE ON PUBLIC HEALTH TO HOLD HEARING IN RESPONSE TO MASSACHUSETTS INFANT MORTALITY TASK FORCE REPORT

Coun. YANCEY offered the following:

Whereas, The Massachusetts Infant Mortality Task Force issued a report citing Boston as having the second highest infant mortality rate among the state's thirty largest municipalities; and

Whereas, The Task Force's report also highlighted a growing discrepancy between the fate of black and white babies in this state, with Boston's black infants three times as likely to die before their first birthday; and

Whereas, This report dramatizes the failure to make quality medical care facilities available to all citizens, especially people of color and poor people; Be It Therefore

Ordered, That the Special Committee on Public Health hold a public hearing in response to the Massachusetts Infant Mortality Task Force's report and to consider steps the City is taking to combat the infant mortality rate in Boston; and Be It Further

Ordered, That the Commissioner of Health and Hospitals, the Directors of all the City's neighborhood health centers and the public be invited to attend.

Referred to the Special Committee on Public Health.

Coun. BYRNE offered the following:

Ordered, That, under the provisions of Section 17F of Chapter 452 of the Acts of 1948, as amended, and under any other applicable provision of law, His Honor, the Mayor, be, and hereby is, requested to obtain and deliver to the City Council, within one week of the receipt hereof, the following information:

1. What is the rationale for hiring a contractor to perform the duties of "manager" in the Health and Hospitals Housekeeping Department if the past manager was laid off due to budget cuts?

2. What is the cost per diem or the weekly salary for this contractor compared to the past salary of the previous manager who was recently laid off by your Department? (section 1a of the Ordinance)

3. Please supply the source of the salary of the consultant. (section 1b of the Ordinance)

ment that can justify the hiring of this person? (as required in section 3 of the Ordinance)

The Mayor has approved the awarding of the contracts based on the following communications:

**ECONOMIC DEVELOPMENT AND
INDUSTRIAL CORPORATION OF BOSTON**

Administer CDBG Funds

16055-91

September 4, 1990

Dear Mayor Flynn:

Pursuant to the Contract between the Public Facilities Department (PFD) and the Economic Development and Industrial Corporation (EDIC), dated September 4, 1990, by which Contract EDIC was designated to administer Community Development Block Grant (CDBG) funds for the City of Boston, and further, by the vote of the Public Facilities Commission (PFC), dated June 21, 1990, stating that the Director of EDIC is authorized to request from the Mayor, on behalf of the Commission, written authority to enter into contracts with service providers funded under the CDBG program, I respectfully request your Honor's permission to award a contract to the Franklin Field Task Force, a non-profit corporation, located at 121 Ames Street, Dorchester, Massachusetts, 02124. Under the terms of the contract, the Contractor will operate a summer day camp for approximately fifty (50) children, targeting the Franklin Field Housing Development.

This program was selected for funding based upon an evaluation of its proposal submitted in response to a publicly advertised Request for Proposals (RFP) issued by the former Mayor's Office of Jobs and Community Services (JCS) on January 24, 1990. Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. The extremely competitive proposal review process focused on a number of selection criteria, including administrative capability, the ability to serve the targeted client population, the need for the proposed services, and conformance with the priorities established by JCS and City residents. The issuance of this proposal document was the culmination of an exhaustive planning process which began in September of 1989. Citizen participation was crucial, for during the period from November 8, 1989 until December 14, 1989, fourteen (14) neighborhood meetings were held across the entire City to solicit community involvement and input in determining funding priorities, culminating in a City-wide hearing held on January 9, 1990. Notices of these meetings were published in the *Boston Sunday Globe* on November 5, 1989, and the *City Record* on November 13, 1989. The availability of the RFP document was published in the *Boston Sunday Globe* on January 21, 1990.

Compensation under the terms of this contract shall not exceed eight thousand, five hundred (\$8,500.00) dollars, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1990 until June 30, 1991. This Contractor has had contracts with this agency for this program for the previous three (3) fiscal years at the following funding amounts: FY 88-\$8,500; FY 89-\$6,500; FY 90-\$6,500. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised RFP, I believe that

further public advertising would serve no useful purpose

Sincerely,

Donald A. Gillis,
Director.

This Contractor has had contracts with this agency for this program for the previous three (3) fiscal years at the following funding amounts: FY 88 — \$29,000; FY 89 — \$26,000; FY 90 — \$24,700. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised RFP, I believe that further public advertising would serve no useful purpose.

Dear Mayor Flynn:

Pursuant to the Contract between the Public Facilities Department (PFD) and the Economic

Development and Industrial Corporation (EDIC), dated September 4, 1990, by which contract EDIC was designated to administer Community Development Block Grant (CDBG) funds for the City of Boston; and further, by the vote of the Public Facilities Commission (PFC), dated June 21, 1990, stating that the Director of EDIC is authorized to request from the Mayor, on behalf of the Commission, written authority to enter into contracts with service providers funded under the CDBG program, I respectfully request your Honor's permission to award a contract to N.I.C.E. Day Care, a non-profit corporation, located at 3297 Washington Street, Jamaica Plain, Massachusetts, 02130. Under the terms of the contract, the Contractor will provide day care services to approximately forty (40) pre-school children of low to moderate income parents from the Jamaica Plain and Roslindale areas.

This program was selected for funding based upon an evaluation of its proposal submitted in response to a publicly advertised Request for Proposals (RFP) issued by the former Mayor's Office of Jobs and Community Services (JCS) on January 24, 1990. Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. The extremely competitive proposal review process focused on a number of selection criteria, including administrative capability, the ability to serve the targeted client population, the need for the proposed services, and conformance with the priorities established by JCS and City residents. The issuance of this proposal document was the culmination of an exhaustive planning process which began in September of 1989. Citizen participation was crucial, for during the period from November 8, 1989 until December 14, 1989, fourteen (14) neighborhood meetings were held across the entire City to solicit community involvement and input in determining funding priorities, culminating in a City-wide hearing held on January 9, 1990. Notices of these meetings were published in the *Boston Sunday Globe* on November 5, 1989, and the *City Record* on November 13, 1989. The availability of the RFP document was published in the *Boston Sunday Globe* on January 21, 1990.

Compensation under the terms of this contract shall not exceed thirty three thousand, seven hundred twenty five (\$33,725.00) dollars, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1990 until June 30, 1991. This Contractor has had contracts with this agency for this program for the previous three (3) fiscal years at the following amounts: FY 88 — \$35,500; FY 89 — \$35,500; FY 90 — \$33,725. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised RFP, I believe that further public advertising would serve no useful purpose.

New South End Housing Nears Completion

Dear Friend:

We have reached the achievement of a significant milestone in expanding the supply of mixed-income housing for Boston residents in the South End/Lower Roxbury neighborhood. The South End Neighborhood Housing Initiative (SENHI) was launched only four short years ago. A community planning process was started in 1986 with the Boston Redevelopment Authority and the Mayor's Office of Neighborhood Services working closely with you in developing and carrying out this program. Today, six neighborhood housing developments are nearing completion.

Over four hundred units of new housing have been created, two-thirds of which will be available to low and moderate income families at a total development cost of nearly \$50 million.

SENHI is an important part of the progress which has been made in the South End. Since 1984, nearly 1,000 units of housing have been completed. Important among these is the award winning 271-unit Tent City Development which was completed under my administration after nearly two decades of inaction. In addition, the 59-unit Tenants Development Corporation (TDC III) project on Massachusetts Ave. and the 155-unit Douglass Park Phase I development are significant contributions to the revitalization of the South End/Lower Roxbury area.

None of this would have been possible without your help, support and participation. This is new housing of which we can all be proud. Congratulations to you — residents and friends of the South End/Lower Roxbury neighborhood.

Sincerely,

Ray Flynn

Raymond L. Flynn
Mayor of Boston

South End Community, City-State Governments work together to make SENHI a reality

Four new housing developments are nearing completion in the South End/Lower Roxbury Neighborhood. Beneath the spire of the old Shawmut Congregational Church, now known

as Taino Tower, 27 units of housing are ready for occupancy. A short distance away, another 212 units on three sites are renting up or will be available soon within one block of each other near Washington Street and Massachusetts Avenue — Langham Court, Parmelee Court and Roxbury Crossing. These four devel-

opments together with the previously completed projects, Marc Tyler Condominiums and the Lodging House, constitute the South End Neighborhood Housing Initiative (SENHI) — a program to produce mixed-income housing on vacant parcels throughout the South End/Lower Roxbury area.

The South End Neighborhood Housing Initiative (SENHI) was launched less than five years ago by Mayor Raymond Flynn and the Boston Redevelopment Authority. BRA Director Stephen Coyle assigned the responsibility for developing and directing the SENHI program to Thomas O'Malley, Assistant Director for Neighborhood Housing and Development. The summer of 1986 marked the beginning of an intense working relationship with the South End community to solicit proposals for new housing, and to begin open public town meeting reviews of some twenty proposals which were received a year later, in the Summer of 1987.

Special congratulations are due to individuals in the neighborhood whose leadership exemplifies the spirit of the South End in carrying SENHI forward. Thanks to Victor Bynoe, Pat Cusick, Jim Davis, Jovita Fontanez, Arthur Howe, Myra McAdoo, Susan Park, Fernando Requena, Byron Rushing, Bob Underhill, and many others.

With the help of South End residents and other interested persons, we have achieved a working success of which we can all be proud — new housing which respects the historic traditions of the South End — housing which reclaims once vacant land

South End Housing . . .

(Continued from previous page)
and rundown buildings — and most of all, developments which provide urgently needed mixed income housing for the South End community.

Soon your neighbors will be moving into this housing. If you haven't seen these new places — take a walk. From Taino Tower on Tremont Street to the brick arches and courtyard of Langham Court to the pleasant townhouses of Parmelee Court on Northampton Street — take a walk and you will be suprised and pleased.

This is great housing. Conceived, reviewed, selected and developed with your help and involvement. Thanks again residents and friends of the South End.

SENHI began in 1986 with Mayor Flynn and BRA Director Stephen Coyle offering seven South End sites for housing development. Few areas in Boston have as much public land available and suitable for residential development as the South End. This available supply, strong development

interest, public investment in new streets, sidewalks, and the removal of the elevated Orange line combined to create a unique opportunity to begin to address South End and Lower Roxbury concerns for housing affordability, community gardens and neighborhood open space.

Over a year of community involvement produced a program designed to address the South End's need for affordable housing. The program also provided opportunities for locally based development corporations, and a chance to achieve new development which conformed to the South End's existing zoning and design requirements.

From spirited community discussions emerged the principle that one-third of all SENHI units would be affordable to households of low (income at or below 50 percent of the Boston metropolitan area's median income); one-third affordable to households of moderate income (incomes at or below 80 percent of the median) and the remaining one-third

be sold or rented at market rates.

From the beginning, all new developments sought would be required to conform to existing community zoning, provide the required parking, open space, and would be subject to stringent review in terms of respecting historic and traditional design standards in the South End.

Along with the creation of new neighborhood housing, the community and the BRA stressed the importance of providing opportunities to minority business enterprises, community development corporations, other non profits, and joint ventures between these groups.

Achieving these community goals has not been simple. Fluctuating market conditions, an unsure economy, rising interest rates, and, recently, a national crisis, make these goals very difficult to achieve in total. But, together, we are well on our way.

THE OBJECTIVE:

To select the most appropriate sites for the creation of new community housing; maximize opportunities for low and moderate income family housing; provide development opportunities for minority entrepreneurs and community based organizations; and establish a community planning and review process.

THE PLAN:

With the demolition of the elevated and the planned reconstruction of Washington Street, major new housing development was focused on sites along the Washington Street corridor and another on Tremont Street. Sites along Washington Street offer maximum opportunities for achieving significant improvements for South End/Lower Roxbury neighborhood.

THE PROPOSALS:

The community process of reviewing nearly twenty high quality development proposals submitted was initiated. A consensus was reached on the selection of development proposals for seven priority sites: Berkeley at Shawmut (Marc Tyler Building); Roxbury Corners, Langham

Langham Court Cooperative Housing

ourt, Parmelee Court and the Paul
ullivan Trust building near Massa-
achusetts Avenue and Washington
reet; the Taino Tower site at 640
remont Street, and a site on East
oncord Street.

THE ACCOMPLISHMENTS:

Completed or nearing completion
are 307 units of housing on six of the
seven sites, with an investment of
over \$50 million reclaiming over
150,000 sq. ft. of vacant land and

buildings. Top quality design, and
achievement of the goals for produc-
ing mixed income housing for com-
munity residents have been accom-
plished.

With the last SENHI project ex-
pected to begin construction early
this year (the East Concord Street
parcels) an additional 40 mixed in-
come rental units will be placed on
the market. In all, SENHI will have
produced 347 units of housing for the
South End/Lower Roxbury area.

FINANCIAL SUPPORT

City of Boston and BRA funds
have been made available to support
these new housing developments. In
all, \$21.6 million in public funds
have been used in financing the proj-
ects and in carrying out various pub-
lic improvements adjacent to the de-
velopments. The Neighborhood
Housing Trust contributed \$6.5 mil-
lion in linkage funds. In addition,
\$6.5 million was provided by the
City of Boston, of which \$5.2 mil-
lion in loans were from Community
Development Block grant (CDBG)
monies. Additional public support of
\$8.6 million was provided from
Boston Redevelopment Authority re-
sources in the form of grants, loans,
and real estate contributions. State
participation through the Massachu-
setts Housing and Finance Agency
provided construction financing total-
ling \$24.3 million. Private financing
through local banks provided an addi-
tional \$7.1 million. Additional equity
for the cooperative and rental devel-
opments was raised through the sale
of tax credits to several Boston insti-
tutions including:

Shawmut Bank

State Street Bank & Trust Com-
pany

South Boston Savings Bank

NYNEX

Boston Bank of Commerce

Prudential Insurance Company

Boston Capital Investment Fund

Boston Safe Deposit

Baybank

Hyde Park Savings

Haymarket

In support of this new housing,

other objectives have been achieved. Thirteen parcels totalling nearly two acres have been conveyed to the South End Open Space Trust for community gardens.

Additional efforts to bolster economic development have been the focus of BRA initiatives on new job-producing projects including the recently completed Massachusetts Square project, current proposals to expand the Ginsburg Recycling Company, and the new South End.

Technology Square Associates (SETSA) project along Albany Street.

Many other good publicly owned sites exist in the South End for not only housing, but for new community gardens, neighborhood commercial development, and job producing light manufacturing use. These and other issues are currently being reviewed by the Working Group of the South End/Lower Roxbury Development Policy.

Preliminary recommendations of the Working Group have been presented for community review and comment in anticipation of reaching a consensus on the Development Policy Plan this year.

T PROPOSES TO INCREASE FARES IN BID TO BOOST REVENUE

*Bus fares to go to 60 cents;
subway fares to 85 cents or \$1.00;
commuter rail increase ranges
from 25 to 75 cents*

The newly appointed MBTA Board of Directors voted today to begin the process to increase fares for all T services in a bid to raise \$21 million requested by Governor William F. Weld.

State Secretary of Transportation and Construction Richard L. Taylor said, "We've started the process to raise fares. The plan will be presented to the state Secretary of Environmental Affairs and to T riders in a series of public hearings. When fully implemented, this increase hits Governor Weld's \$21 million target for the T."

Acting T General Manager James E. Rooney said, "At this point we feel that raising fares, rather than cutting service, is the best approach we can take. We've reviewed many alternatives and are presenting the best two for public review."

"We've made extensive efforts to tighten our own belt at the T and we have done our best to spread this increase across all T services to make it fair for everyone," Rooney said.

The new fares may be able to go into effect by early August, but not until the public comment process has been completed and the T has had an opportunity to review what has been said about the plans.

Five meetings are scheduled May 20-23 throughout the region to give area residents the opportunity to talk with the T about the proposed fare increase.

The meeting schedule is:

- Monday, May 20: Thomas P. O'Neill, Jr. Federal Building, 10 Causeway Street, Boston, 4:00 p.m. - 6:00 p.m.
- Monday, May 20: Roxbury Boys and Girls Club, 115 Warren Street, Roxbury, 7:00 p.m. - 9:00 p.m.
- Wednesday, May 22: Watertown High School, 50 Columbia Street, Watertown, 7:00 p.m. - 9:00 p.m.
- Thursday, May 23, Lynn English High School, 50 Goodridge Street, Lynn, 7:00 p.m. - 9:00 p.m.
- Thursday, May 23, North Quincy High School, 316 Hancock Street, Quincy, 7:00 - 9:00 p.m.

Written comments on the proposals may be sent to the T by May 24: MBTA 1991 Fare Increase Committee, 10 Park Plaza, Boston, MA 02116.

T subway and commuter rail fares were last raised in the spring of 1989 when subway fares were increased by 15 cents (from 60 to 75 cents); express bus fares by 25 or 40 cents (to \$1.25, \$1.65, and \$1.90); and commuter rail from 25 to 75 cents (ranging from \$1.00 to \$5.25). Prior to the 1989 fare hike, T prices had not been raised since 1981.

Over 36 percent of T operating costs are met by T revenues. This is consider-

ably lower than the 50 percent a higher rate achieved by every other major transit authority in the country. Following the implementation of the new fare structure, the T will still have one of the lowest basic bus and subway fares among the country's largest transit systems.

Since 1989, the T has moved aggressively to tighten its own belt before asking passengers to pay more. This action has included cutting over 100 administrative staff; reducing employee overtime by 37 percent; and, saving over \$1 million by bringing work inhouse that had been done by outside contractors. The T is also working hard to eliminate fare evasion and increase revenue from advertising and the rental of concession space.

T OKs ADVERTISING ON SIDES OF BUS AND STREETCAR FLEET, SALE OF TOBACCO IN STATION STORES IN BID TO RAISE OVER \$1 MILLION A YEAR

Responding to Governor William F. Weld's call for additional T revenue, the newly appointed MBTA Board of Directors voted today to allow the placement of advertising on the outside of the T's newest buses and Green Line streetcars and a six-month trial period for the sale of tobacco in station stores. Bus advertising is expected to earn the T over \$1 million each year.

State Secretary of Transportation and Construction Richard Taylor said, "The Governor has been very direct and very strong in his call for additional T revenue. In this tough economic climate, these are just some of the measures the T will be taking to reduce reliance on state funds."

The addition of advertising on the outside of 675 buses and streetcars is expected to earn \$1 million for the next year, with the potential of nearly \$1.5 million a year when the program is in full operation. Currently, 450 of the T's older vehicles carry advertising. Advertising on the outside of new T vehicles was banned in 1986 for aesthetic reasons.

The sale of cigarettes and tobacco products in station stores is expected to increase the rental value of the T's concession space by more than \$100,000 a year. Cigarette sales will continue to be banned from stores located on station platforms.

Acting T General Manager James E. Honey said, "The T is looking very hard at a whole range of measures to bring in new revenue. Allowing the sale of cigarettes is just one part of our strategy."

Rooney noted that tobacco product sales at variety stores and markets often account for as much as 30 percent of gross sales, and some outlets, including convenience stores like Store 24 and Aristy's, have not considered T locations in the past because of the ban.

Rooney added, "Smoking on T property is not a question of where people can buy cigarettes, it is a matter of citizen cooperation and enforcement. The state's no-smoking law remains in effect, and we are strengthening our enforcement efforts."

In beefing up its enforcement of no-smoking laws, the T is:

- instructing station officials to increase their vigilance
- improving no-smoking signs in stations
- increasing no-smoking public address announcements
- toughening discipline procedures for employees who violate no-smoking laws

The T has also introduced legislation, currently being considered by the legislature, which would enable T police officers and station inspectors to issue citations to offenders who smoke on MBTA property. The citation would carry a \$20 fine, and would be administered similarly to the way parking fines are handled.

In approving the new policy, the MBTA Board went on record in opposition to cigarette smoking, but felt that the sale of cigarettes would not increase smoking violations on the T since public health and education efforts, as well as growing social pressures, have already significantly lowered the level of public smoking.

The T Board voted in 1985 to exclude the sale of cigarettes and tobacco products in T concession space as leases for those spaces came up for renewal.

Over the past several years the T has more than doubled the money it has made from "non-farebox" sources, increasing revenue from \$6.2 million in 1988 to \$12.4 million projected for this year. These T initiatives include:

- installation of 31 new clocks with advertising, 254 new station advertising panels, electronic signs with advertising, and more pay phones
- installation and lease of fibre optic cables along T train tracks and tunnels
- installation of Automatic Teller Machines (ATMs) in subway stations
- licensing of commercial products with the MBTA's "T" logo
- increase in parking fees at subway and bus stations and introduction of parking fees at commuter rail stations.

CONTRACTS AWARDED AFTER ADVERTISING ("Requests for Proposals") ("Requests for Qualifications") ("Technically Deficient Bids")

The Mayor has approved the awarding of the contracts based on the following communications:

ECONOMIC DEVELOPMENT AND
 INDUSTRIAL CORPORATION OF BOSTON

16073-91
 September 4, 1990

Dear Mayor Flynn:

Pursuant to the Contract between the Public Facilities Department (PFD) and the Economic Development and Industrial Corporation (EDIC), dated September 4, 1990, by which Contract EDIC was designated to administer Community Development Block Grant (CDBG) funds for the City of Boston; and further, by the vote of the Public Facilities Commission (PFC), dated June 21, 1990, stating that the Director of EDIC is authorized to request from the Mayor, on behalf of the Commission, written authority to enter into contracts with service providers funded under the CDBG program, I respectfully request your Honor's permission to award a contract to the Veterans Benefit Clearinghouse, Inc., a non-profit corporation, located at 70 Warren Street, Roxbury, Massachusetts 02119. Under the terms of the contract, the Contractor will provide personal and family counseling services, and referral services to approximately five hundred (500) low to moderate income veterans and their families.

This program was selected for funding based upon an evaluation of its proposal submitted in response to a publicly advertised Request for Proposals (RFP) issued by the former Mayor's Office of Jobs and Community Services (JCS) on January 24, 1990. Costs were determined to be reasonable after extensive analysis by JCS staff and outside readers. The extremely competitive proposal review process focused on a number of selection criteria, including administrative capability, the ability to serve the targeted client population, the need for the proposed services, and conformance with the priorities established by JCS and City residents. The issuance of this proposal document was the culmination of an exhaustive planning process which began in September of 1989. Citizen participation was crucial, for during the period from November 8, 1989 until December 14, 1989, fourteen (14) neighborhood meetings were held across the entire City to solicit community involvement and input in determining funding priorities, culminating in a City-wide hearing held on January 9, 1990. Notices of the these meetings were published in the *Boston Sunday Globe* on November 5, 1989, and the *City Record* on November 13, 1989. The availability of the RFP document was published in the *Boston Sunday Globe* on January 21, 1990.

Compensation under the terms of this contract shall not exceed thirty thousand (\$30,000.00) dollars, payment being made from the Community Development Block Grant (CDBG) program. The period of performance shall be from July 1, 1990 until June 30, 1991. This Contractor has had contracts with this agency for this program for the previous three (3) fiscal years at the following amounts: FY 88 — \$33,500; FY 89 — \$36,500; FY 90 — \$34,675. This request has been delayed due to the length of time involved in the funding review process, and due to the recent merger of JCS into the Economic Development and Industrial Corporation (EDIC).

As this is a negotiated contract at a reasonable cost, based upon an extensive review of proposals submitted in response to a competitive, publicly advertised RFP, I believe that further public advertising would serve no useful purpose.

Sincerely,
 Donald A. Gillis
 Director

September 4, 1990

Dear Mayor Flynn:

Under the terms of the contract, the contractor will provide individual and family counseling services to approximately sixty-one (61) low income linguistic minorities.

This program was selected for funding based upon an evaluation of its proposal submitted in response to a publicly advertised Request for Proposals (RFP) issued by the former Mayor's Office of Jobs and Community Services (JCS) on January 24, 1990.
